Frameworks:
Django (Basic), SpringBoot (Learning)

Experience

I have made some simple projects while learning programming languages and programming concepts. Find those in my portfolio above. But I still have not worked in any real company.

A Personal Request

*It would be very helpful for me if I get a chance to work and prove my technical and inter-personal skills. I am a quick learner and a dedicated person. I love problem solving and learning new technologies. I am sure I will be able to adapt to the responsibilities given to me and work efficiently with the team and coworkers. And **I am offering myself to work for free for the first month**. I will look forward to get a reply from you.*
